"Naq ensures that our business is compliant and our data stays secure. Their platform brings together all of our compliance policies into a single dashboard, making it easy to see where we stand, even as our business becomes more complex"

Hans v L, TMA World

Close deals faster with automated due diligence and vendor management.

"Naq has been instrumental in achieving compliance and security, obtaining ISO27001 certification and shortening our sales-cycle by easily demonstrating our compliance to enterprise customers."

Arnold B, Vormats

Scale without friction – add new frameworks and standards as you grow.

"As well as the platform, their service continues to scale with our demands; they've even helped us tailor our compliance policies in line with the new markets where we want to operate."
